I got Doan's Kidney Pills and three boxes strengthened my kidneys and back and toned up my system."

MILLION PEOPLE IN CHINA HOMELESS

7,000 Square Miles Inundated by Overflow of the Hwai River

APPEALS FOR AID SENT TO AMERICA

Delayed Advances Describe Conditions Several Weeks Ago, But Officials in Washington Believe There Has Been Little Improvement.

WASHINGTON, Sept. 21. — Nearly 1,000,000 people have been made homeless by one of the greatest floods on record in that section of China, where the American Red Cross already has spent \$300,000 for flood protection and where the \$20,000,000 loan for reclamation work which was postponed by the war was to have been spent. Reports to the state department from the American consul at Nanking said the Hwai river had inundated an area of about 700 square miles in Anhui province. Appeals for aid have been sent out for the homeless, who virtually are dependent on charity, as all the autumn crops were destroyed.

The flood occurred in a very flat, alluvial section where the north-to-south passage of the Grand canal had dammed up a large lake and allowed the Hwai river too little space to carry off the excess of water. The delayed advances described conditions several weeks ago, but officials believe there probably has been little improvement. In the case of previous floods in that district the waters have been held for long periods by the alluvial soil.

Building operations on hill streets have a tendency to put sidewalks out of commission. Last week it was necessary to fence off a part of even the temporary sidewalk on Main street at the front of the Barber property because the embankment had caved in and it was unsafe. Today a section of the sidewalk on High street hill opposite Green street is fenced off. While workmen were digging this morning for the foundation of the new Manley garage the bank under the sidewalk caved in and made it unsafe for pedestrians. No one was hurt.

HORRORS OF WAR TO BE PICTURED

Conditions Studied at First Hand to Be Presented by Stereopticon in Northfield Auditorium.

Frederic C. Walcott, a member of the banking firm of William P. Bonbright & Co. of New York, while on a business trip to Paris in the early part of last winter, as the representative of a group of New York banks, was asked to represent the John D. Rockefeller Foundation in examining conditions in Belgium. Exceptional opportunities were afforded him for inquiry, and every courtesy on the part of the German officials was extended to him. Later, at the request of the German government, his investigations were extended to Poland, where the authorities assured him the need was still greater than in western Europe.

Mr. Walcott is to give a lecture in the Auditorium, East Northfield, Mass., at 7 o'clock Saturday of this week. Stereopticon slides, reproduced from photographs which Mr. Walcott himself took, will be given. It is the purpose of the lecturer to impress upon the youth of the country the devastation and horrors of war, rather than to hold a brief for any nation or nations in this present conflict. There is no entrance fee and no collection will be taken, and the public is welcome.
